

The logo for Steel Window Fittings (swf) is displayed in a stylized, lowercase font within a white square that is tilted and framed by a light green border.

STEEL WINDOW FITTINGS

# Concealed Multipoint Options (W50TB)

## Welcome to the Concealed Multipoint guide

Not sure which kit you need for your W50TB window?

Steel Window Fittings offer a range of options to suit, depending on your window's :

- Handle Type
  - Glazing
  - Opening
  - Sizing

When using this document to find your configuration, please use the buttons and not the scroll.

Get started

The logo for Steel Window Fittings (swf) is displayed in a stylized, lowercase font within a white square that is tilted and framed by a light green border.

STEEL WINDOW FITTINGS

# Concealed Multipoint Options (W50TB)

Is your Window Inside Glaze or Outside Glaze?

Inside Glaze

Outside Glaze

Next

How can I tell?

Your window will have beading strips situated either internally or externally. If they are internal, your window is inside glazed. If your window's beading strips are external, your window is outside glazed.

The logo for Steel Window Fittings (swf) is displayed in a stylized, lowercase font within a white square that is tilted and framed by a light green border.
