

PRODUCT FEATURES & TECHNICAL INFORMATION

- A weld on self-aligning hinge made from mild steel
- Suitable for use on windows and doors
- Features a security screw which can only be accessed when in open position enabling the hinge to act as a lift off to remove the window or door
- Supplied with a brass bush and stainless steel bolt pin as standard
- S1036BPIN Brass pin can be purchased separately for a different aesthetic appearance
- Requires a suitable finish to be applied, *these are normally fixed to the window or door during preparation stages*
- Hinges available in left (LH) or right hand (RH)
